

**AUDIENCE SURVEY**

ADC and the Forum Planning Team invite you to share your opinions and ideas about the Key Findings listed in the After Action Report. In the first part of the survey, we would like you to rate the importance of each key finding. In the second part of the survey, you will have an opportunity to share your thoughts about implementation steps. The information gained from this survey will be used by ADC to develop and refine its policy and legislative recommendations, as well as identify promising practices for communities/states.

**Part I: RATE FINDINGS**

Please rate the importance of the Key Findings using a scale of 1-5, with 1 being the lowest priority and 5 being the highest priority. You can also provide additional comments and priorities.

**Please circle your rating choice beside each key finding.**

KEY FINDINGS						Additional Comments on the Finding
<b>Importance of establishing communications and building strong relationships. (After Action Report Pages 4 &amp; 25)</b>	1	2	3	4	5	
<b>The value of master planning and STET. (AAR Pages 6 &amp; 27)</b>	1	2	3	4	5	
<b>Understanding of an installation’s mission starts well before the Commission phase and is based on routine interaction between the installation and the local community. (AAR Page 17)</b>	1	2	3	4	5	
<b>BRAC analyses should reflect an understanding of the impacted installation’s mission and demonstrate synergies between an installation and the surrounding community and its infrastructure. (AAR Page 20)</b>	1	2	3	4	5	
<b>Communities must use targeted, data-driven analyses that are focused on military value, and speak with “one voice” when communicating to the Commission. (AAR Page 19)</b>	1	2	3	4	5	

<b>Importance of sharing accurate data. (AAR Page 6)</b>	1	2	3	4	5	
<b>Effective deliberations rely heavily on effective planning, data management and training. (AAR Page 9)</b>	1	2	3	4	5	
<b>The quality of recommendations needs to be improved. (AAR Page 11)</b>	1	2	3	4	5	
<b>All aspects of data management could be improved. (AAR Page 12)</b>	1	2	3	4	5	
<b>Many of the challenges during the Commission phase are caused by its compressed timeline as compared to the other phases of the BRAC process. (AAR Page 18)</b>	1	2	3	4	5	
<b>Analyses should reflect an understanding of the impacted installation's mission and demonstrate synergies between an installation and the surrounding community and its infrastructure. (AAR Page 20)</b>	1	2	3	4	5	
<b>Importance of open and constant Communication. (AAR Page 23)</b>	1	2	3	4	5	
<b>Take a regional approach to address growth. (AAR Page 26)</b>	1	2	3	4	5	
<b>Communities must understand and use all of the various means to provide input during the Commission phase – use and make the most of all opportunities to communicate. (AAR Page 21)</b>	1	2	3	4	5	

**PART II: SHARE IMPLEMENTATION STEPS IDEAS**

Please provide your **thoughts and ideas** on the **implementation steps** needed to advance the critical idea described in the report. You are welcome to provide input on all fourteen key findings, or just the ones of interest to you.

**Importance of establishing communications and building strong relationships. (After Action Report Page 4 & 25)**

---

---

---

**The value of master planning and joint land use planning. (AAR Pages 6 & 27)**

---

---

---

**Understanding of an installation’s mission starts well before the Commission phase and is based on routine interaction between the installation and the local community. (AAR Page 17)**

---

---

---

**BRAC analyses should reflect an understanding of the impacted installation’s mission and demonstrate synergies between an installation and the surrounding community and its infrastructure. (AAR Page 20)**

---

---

---

**Communities must use targeted, data-driven analyses that are focused on military value, and speak with “one voice” when communicating to the Commission. (AAR Page 19)**

---

---

---

**Importance of sharing accurate data (AAR Page 6)**

---

---

---

**Effective deliberations rely heavily on effective planning, data management and training (AAR Page 9)**

---

---

---

**The quality of recommendations needs to be improved (AAR Page 11)**

---

---

---

**All aspects of data management could be improved (AAR Page 12)**

---

---

---

**Many of the challenges during the Commission phase are caused by its compressed timeline as compared to the other phases of the BRAC process (AAR Page 18)**

---

---

---

**Analyses should reflect an understanding of the impacted installation's mission and demonstrate synergies between an installation and the surrounding community and its infrastructure (AAR Page 20)**

---

---

---

**Importance of open and constant communication (AAR Page 23)**

---

---

---

**Take a regional approach to address growth (AAR Page 26)**

---

---

---

**Communities must understand and use all of the various means to provide input during the Commission phase – use and make the most of all opportunities to communicate. (AAR Page 21)**
